

# FLEXX SWAP

Powered by **MILLIBAR**

The Flexx Swap combines the cobot redeployment benefits of the Flexx Reference with the end of arm tool innovation of Millibar. Use the Flexx Swap to rapidly switch between using the Flexx Reference and your end of arm tool. The Flexx Swap allows users to integrate the Flexx Reference much easier with vision and avoid end of arm tool interference issues when programming your Universal Robot.

## The Flexx Swap can help you...
